## RAW MATERIALS

The company views raw materials as important components to produce high quality products. Raw materials such as paper rolls are acquired locally and from overseas countries such as New Zealand, USA, Australia, and Thailand.

In order to ensure that our customers get their cartons on time, we maintain an average stock level of 1.5 months. Raw materials will be individually checked and tested before they are allowed to enter the warehouse. The tests include bursting strength test, ring crush test, moisture test and grammage test.

## PRODUCTS

- Corrugated Paper Boards  
Fluting available – A, B, C, BA, BC, AA and AAA
- Corrugated Cartons
- Layer Pads
- Nesting
- Partitions
- Paper Pallets
- Slip Sheets

## CAPACITY

Our present corrugator capacity is 4000MT/ month. Appended below is the list of our machineries.

Machineries & Equipment	Manufacturer	Unit
1) 1.8m Corrugator with speed of 250m/min.	Hsieh Hsu-Taiwan	[1 unit ]
2) 3-Colour Flexo Printer / Slotter / D.Cutter (max: 2350mm x 1250mm) (min: 575mm x 320mm)	Wisdom-Taiwan	[1 unit ]
3) 4-Colour Flexo Printer / Slotter (max: 2350mm x 1250mm) (min: 575mm x 320mm)	Wisdom-Taiwan	[1 unit ]
4) 3-Colour Flexo Printer / Slotter / Gluer (max: 1800mm x 633mm) (min: 633mm x 190mm)	TCY-Taiwan	[1 unit ]
5) 5-Colour Flexo Printer / Slotter (max: 2100mm x 890mm) (min: 520mm x 250mm)	Wisdom-Taiwan	[1 unit ]
6) Semi-Auto Die-Cuter (max:1500mm x min: 640mm)	China Taiwan	[3 units] [1 unit ]
7) Slitter Creaser (max: 2300mm x min:140mm)	Awetek Engineering China	[1 unit ] [1 unit ]
8) Semi-Auto Gluer (max: 700mm x min: 200mm)	Wisdom-Taiwan	[3 units]
9) Wire Stitcher	Wisdom-Taiwan	[4 units]
10) Automatic Tying Machine	Chang Yong-Taiwan	[7 units]
11) Up / Down Hand Slotter	Wisdom-Taiwan	[1 unit ]
12) Centaro Bandsaw 4 Hp	Centaura – Italy	[1 unit ]
13) Auto Stitcher	Godswill – Taiwan	[2 units]

## QUALITY CONTROL

Quality is one of our most important objectives. The QC System that we apply on our products is One-Line Checking System and random Check System. QC personnel have been well-trained to check on paper substance, board hardness, measurement, printing sharpness, slotting accuracy, gluing adhesion, stitching accuracy and last but not least, the delivery condition. Raw Materials and finished goods are randomly checked and tested by using the company's quality checking instruments before sending out the cartons to customers.

## TEST EQUIPMENT

- Bursting Strength Tester (Gotech-Taiwan)

To determine the bursting strength of paper, corrugated board and carton.

- Micro-Computer Container Compression Tester (Gotech-Taiwan)

This machine has a built-in highly accurate load cell and CPU to enable direct viewing of the force value on display. It is used to test the compression level of containers, cartons, etc.

- Mirco-Computer Ring Crush Tester (Gotech-Taiwan)

Incorporate a highly accurate load cell and CPU to enable direct view of the strength of the specimen on display. It is used to test ring crush strength (vertical, horizontal) of paper materials.

- Die-Cutter (Gotech-Taiwan)

Used for preparing the standard specimen for ring crush test or others.

- Sample Cutter For Column Compression (Gotech-Taiwan)

Use 2 cutters:-

1) Parallel Cutter or

2) Angle Cutter to get a standard specimen for column compression test.

- Basic Weight Scale (Shinko-Japan)

Get the weight of paper or paper board.

# QUALITY ASSURANCE POLICY

“Quality means in enhancing competitiveness”

- OBJECTIVES

We believe in teamwork that will increase quality awareness and shall enhance the quality of working life.

We promote our product and service quality through productivity and technological improvements.

## NEW PRODUCT DEVELOPMENT FOR 2013

- Heavy Duty Corrugated Boxes (AAAF & AAF)

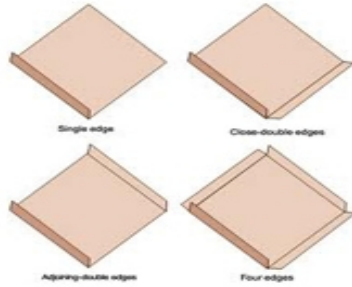

- Mainly used as substitute for wooden crate boxes.
- Used for heavy industries, i.e. Solar Industry, Automotive, Chemical etc..
- Paper Substances: Max: K440 & Min: K250 .

- Paper Pallets

- Slip Sheets

- Used as a more environmental-friendly and cost-effective replacement for the heavy wooden pallets.
